This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Together with a Nomination signed by six Fellows of the College in the following Terms, viz.:—

We, the undersigned Fellows of the Royal College of Surgeons of England, do hereby certify that A. B., of C., is in our estimation a fit and proper person to be a Member of the Council of the said College: and we do hereby nominate him a Candidate for a seat in the said Council.

And also a Certificate signed by three Fellows, in the following Terms, viz.:—

We, the undersigned Fellows of the Royal College of Surgeons of England, do hereby certify, on our own personal knowledge, that A. B., of C., is in the *bonâ fide* practice of the Profession of a Surgeon, and that he does not practise as an Apothecary.

THE SECRETARY'S REPORT.

Proceedings of the Committee of Management.

Committee of Management.

THE following are the Reports from the Committee of Management of the Examining Board in England by the Royal College of Physicians of London and the Royal College of Surgeons of England as approved and adopted at the several Meetings of the Council during the Collegiate year at the dates mentioned, viz. :—

Reports of Committee of Management.

ORDINARY MEETING OF THE COUNCIL ON THE 4TH OF AUGUST, 1887.

Ordinary Council in August 1887.

REPORT, dated the 20th of July, 1887, from the Committee of Management of the two Colleges.

Report.

The Committee have to report that, in compliance with the request of the two Colleges, they have now prepared a scheme for carrying out the Examination for the Conjoint Diploma of Public Health, and have adopted the following recommendations on this subject to the two Colleges, viz. :—

Scheme for Examinations for Diploma of Public Health.

1. That the Regulations relating to the Examination, drawn up by the Committee and accompanying this Report, be adopted.

Regulations relating thereto.

2. That for the present the Examiners for the Diploma of Public Health be paid on the same scale as that adopted hitherto at the Royal College of Physicians, *i. e.* Ten Guineas for 5 or less than 5 Candidates, and a capitation fee of Four Guineas for all Candidates over that number.

Scale of Payment to Examiners.

3. That the Committee of Management be authorized to nominate, for election by the two Colleges, four Examiners to conduct the Examination in Public Health.

Committee to nominate Examiners for Election by Colleges.

Memorial from recognized Provincial Hospitals as to injury done to their Students by Regulations of Examining Board.

The Committee have carefully considered the letter of the 14th May last from Mr. James Bankart, and the accompanying Memorial from several of the recognized Provincial Hospitals, calling the attention of the Colleges to the injury done to Students entering at such Hospitals by those Regulations of the Examining Board in England which, by defining the intervals which must now elapse between the several Examinations of the Board, no longer permit a whole year's attendance, at the commencement of the Student's career, on the practice of such Hospital being counted as one of the required four years of professional study. On this subject the Committee have adopted the following as their Report, viz.:—

Committee do not recommend changes, but point out how Provincial Hospitals may be utilised.

That this Committee cannot recommend to the Royal Colleges any change in the Regulation for the Conjoint Examinations, according to which the Colleges do not admit any Candidate to either part of the Third or Final Examination till the expiration of two years after his having passed the Second Examination.

That according to the Second Report of the Statistical Committee of the General Medical Council (p. 15) the average time occupied in Medical study—between Registration and the Final Examinations—is approximately five years.

That, therefore, it is still in the power of the Provincial Hospitals to take a part in training Students, not only by providing opportunities for acquiring professional knowledge before the commencement of the first year of study at a recognized Medical School, but also by providing instruction in Chemistry, Chemical Physics, Materia Medica, and Pharmacy, the required Examinations in which subjects may be passed in the preliminary period above indicated.

The Committee beg leave also to submit the following recommendations for approval and adoption, viz.:—

Minor alterations in Regulations.

1. That Candidates who withdraw from a part or parts of an Examination for which they have sent in their names, shall not be admissible to such part or parts until the expiration of six months, without the special permission of the Committee of Management.

2. That paragraph 9 Part II. of the Scheme for constituting an Examining Board in England be amended so as to provide that the period occupied by the Oral and Practical Examination of each Candidate on Materia Medica and Pharmacy be "not less than ten minutes," instead of "not less than fifteen minutes."

Examination Hall to be used by other Institutions when not required by Colleges.

The Committee further suggest to the two Colleges the propriety of permitting portions of the Examination Hall, at times when they are not required for the Examinations of the Examining Board in England, to be used by other Institutions, especially for purposes connected with Medical Education, on terms to be arranged by the Committee of Management.

JOHN MARSHALL,
Chairman.

July 20th, 1887.

QUARTERLY MEETING OF THE COUNCIL ON THE 13TH OF OCTOBER, 1887.

Quarterly Council in October 1887.

REPORT, dated the 4th of October, 1887, from the Committee of Management of the two Colleges.

Report.

The two Colleges having referred to the Committee of Management the nomination for election by them of the four Examiners required to conduct the Examination for the Diploma of Public Health, the Committee beg to nominate the following gentlemen to that office, viz.:—

Committee nominate Examiners in Public Health for election by two Colleges.

Dr. Thomas Stevenson;
Dr. Edward Ballard;
Dr. Thorne Thorne;
Dr. William H. Corfield.

The Committee have to report that, in pursuance of the conditions of paragraph VI. Part I. of the Scheme for constituting an Examining Board in England, Sir Henry Pitman, M.D., and Mr. John Marshall, F.R.S., retire in rotation from the Committee, and are eligible for re-election.

Sir H. Pitman, M.D., and Mr. J. Marshall retire in rotation from Committee.

JOHN MARSHALL,
Chairman.

The Examiners in Public Health, nominated by the Committee, were elected.

Examiners in Public Health elected.

Mr. John Marshall was unanimously re-elected a Member of the Committee of Management.

Mr. J. Marshall re-elected Member of Committee.

ORDINARY MEETING OF THE COUNCIL ON THE 8TH OF DECEMBER, 1887.

Ordinary Council in December 1887.

REPORT, dated the 15th of November, 1887, from the COMMITTEE OF MANAGEMENT OF THE TWO COLLEGES.

Report.

The Committee have to report that they have taken into consideration the Applications from the University of Otago, Dunedin, New Zealand, and the University of Buffalo, New York, U.S.A., to be added to the list of Institutions recognized by the Board for professional study, such applications having been referred to the Committee by the Council of the Royal College of Surgeons for consideration and report, and beg to recommend to the two Colleges:—

Recommendations respecting University of Otago, Dunedin, New Zealand, and the University of Buffalo, New York, U.S.A.

That University of Otago be recognized, and University of Buffalo be not recognised.

1. That the University of Otago, Dunedin, New Zealand, be recognized as fulfilling the requirements of the Board in regard to Professional study for the Diplomas of the two Colleges; and

2. That the University of Buffalo be not recognized as fulfilling those requirements.

Recommendation for verbal alteration in paragraph IX. Section II. of the Regulations of the Board.

The Committee have also to recommend to the two Colleges the insertion of the words "for a Degree in Medicine" after the word "Examination" in line 2, paragraph IX. Section II. of the Regulations of the Board, so that the paragraph may read as follows, viz.:—

"IX. Any Candidate who shall produce satisfactory evidence of having passed an Examination for a degree in Medicine on any of the subjects of the First and Second Parts of this Examination conducted at a University in the United Kingdom, in India, or in a British Colony, will be exempt from Examination in those subjects in which he has passed."

HENRY A. PITMAN,
Chairman.

15th November, 1887.

Quarterly Council in April 1888.

QUARTERLY MEETING OF THE COUNCIL ON THE 12TH OF APRIL, 1888.

Report.

REPORT, dated the 20th of March, 1888, of the COMMITTEE OF MANAGEMENT.

Committee recommend increase of Staff at Examination Hall.

1. The Committee have to report to the two Colleges that, having now had a year's experience of the working of the Examinations at the Examination Hall, they have come to the conclusion that the staff originally appointed is not sufficient to carry on the business of the Examinations; and that they have therefore, in virtue of the powers conferred on them by the Deed of Arrangement between the two Colleges, appointed another Junior Clerk at a remuneration of 30*s.* per week, and an Office-boy at 10*s.* per week wages.

Report Gratuities to Staff for extra Services.

2. The Committee have also to report that, in consideration of the necessary additional work which has fallen on the Staff during the past year, involving as it did a considerable extension of the Office hours beyond those originally contemplated, the Committee have thought it right to recognize their services by awarding to the Secretary Fifty Guineas, to each of the two Senior Clerks Fifteen Guineas, and to the Junior Clerk Ten Guineas.

3. And the Committee have further to state that they have taken into consideration the application, dated the 1st of October last,

from the Staff of the South Devon and East Cornwall Hospital, Plymouth, for the recognition of that Hospital by the two Colleges; and that, after having examined the several documents accompanying such application, they have adopted the following resolution as their recommendation to the two Colleges, viz:—

Recommend recognition of South Devon and East Cornwall Hospita

That it be recommended to the two Colleges to include the South Devon and East Cornwall Hospital, Plymouth, in the list of Provincial Hospitals recognized by the Examining Board in England.

HENRY A. PITMAN,
Chairman.

THE VICE-PRESIDENTS.

The previous Reports of the Committee having been approved and adopted by the Council, the Committee have agreed to the following as their Ninth Report to the Council, viz. :—

The Committee have to report that, a difficulty having arisen with Messrs. Bolton, Robbins, and Busk, the occupiers of No. 45 Lincoln's Inn Fields, on the question of air and light as affected by the building of the proposed Museum on the site of houses Nos. 8 and 9 Portugal Street, at the rear of houses Nos. 43 and 44 Lincoln's Inn Fields, a proposal sanctioned by the Council at a cost of £10,000 on the 10th of February, 1887, it became necessary to consider an alternative scheme for the erection of New Museums on the site occupied by No. 8 Portugal Street and No. 43 Lincoln's Inn Fields, for which purpose plans were prepared by Mr. Salter the Architect; and that the Committee, having examined Committee report difficulties which have arisen as to construction of New Museum, and propose alternative plan for construction of two New Museums.

those plans, now recommend to the Council that two Museums should be erected on the last-named site at an approximate cost of £7500 for the smaller Museum at the back of the Premises, and of £11,000 for the larger Museum with its frontage in Lincoln's Inn Fields.

Committee propose construction in first place of smaller Museum.

The Committee, in making this recommendation to the Council, have further to report that, as it will probably not be possible to obtain possession of the front house, No. 43 Lincoln's Inn Fields, until Michaelmas-day 1889, it is proposed to proceed, in the first instance only, with the construction of the smaller Museum, whereby the cost of the whole undertaking will be spread over a longer period.

Committee recommend Expenditure for installation of Electric Light, etc.

The Committee have further to recommend the Council to authorize the following Expenditure for the Installation of the Electric Light in part of the College Premises, and for the necessary painting and decorating of the Libraries:—

QUARTERLY MEETING OF THE COUNCIL ON THE 12TH OF JANUARY, 1888.

Report of Colleges' Land Committee approved and adopted.

REPORT, dated the 15th of December, 1887, of the COLLEGES' LAND COMMITTEE.

Report.

The Committee of Delegates appointed by the two Colleges "to report as to the best use to which the unoccupied ground belonging to the two Colleges can be applied," consisting of the following Members, viz. :—

Dr. Andrew,	Mr. Sydney Jones,
Dr. Ringer,	Mr. Durham,

having now received the report of the Sub-Committee * which was appointed by the Presidents of the two Colleges, in accordance with the recommendatien of this Committee, dated the 6th June last, beg now to submit to the two Colleges the following further report embodying the recommendations of that Sub-Committee, viz. :—

Recommendations as to form and construction of New Buildings.

The Committee are agreed in the opinion that the limitation in extent of the ground to be occupied precludes the possibility of erecting buildings on plans similar to those adopted elsewhere, and therefore concur in recommending the following special plans :—

They agree that the position and shape of the ground do not admit of any great deviation from the original intention of erecting two lateral blocks in continuation of the wings of the present building with a Theatre in the space between them; but in view of the fact that, owing to the height of the houses erected or in course of construction on either side of the building, the light in the lower rooms of the wings would be generally insufficient for the purposes of research-work, they recommend to the two Colleges the erection of two *galleries* of rooms over the back part of the Theatre from wing to wing at a sufficient elevation to obtain a good south light.

These two proposed additional galleries would provide eight rooms 20 feet long and 15 feet broad, with excellent light, and would not be overlooked except from the Examination Hall.

This Plan also admits of the wings being slightly reduced in width from the original design so as to enable the Theatre to be

enlarged to accommodate 400 persons, which, in the opinion of the Committee, would be desirable.

The Plans which have now been submitted by the Architect, embodying the scheme above indicated, appear to the Committee to be perfectly adapted to the purposes of "investigation and exposition," for which they are intended.

The Architect's approximate estimate for the construction of the proposed Buildings is as follows:—

Approximate Estimates as to cost, &c.

For two wings of four storeys each containing four large rooms which may be subdivided hereafter, a Theatre to accommodate 400 persons, and two galleries containing four rooms each, £26,000.

In recommending these plans to the two Colleges, the Committee desire to add that, assuming that the subjects of investigation be restricted to such as relate to Medicine and Surgery*, they are enabled to state generally that an additional expenditure will be required for internal fittings which need not exceed £5000, and that the annual expenditure for maintenance would not be less than £500, and need not exceed £1000.

The Committee, in conclusion, have to report that the Sub-Committee have expressed their readiness to report on a future occasion upon the precise nature of the internal arrangements and fittings of the proposed rooms and Theatre, should they be authorized to do so, feeling that any special definition of the mode in which the above-mentioned £5000 should be expended would be premature, and also being of opinion that the construction of the Building may be proceeded with, without waiting for complete details concerning such arrangements.

Statement as to proposed appropriation of vacant ground behind the Examination Hall.

The Committee have to report to the two Colleges that since the plans recommended by the Colleges' Land Committee for the erection of a Lecture Theatre, Laboratories, and other Rooms on the vacant ground behind the Examination Hall were sanctioned by the two Colleges, objection has been taken to them by the Architect to the Duchy of Lancaster and by the Tenants in the houses in rear of the plot of land,—the former on the ground that the agreement between the Duchy and the two Colleges does not give them the right of way over the portion of ground reserved for light and air, which it was intended to use partly as a private roadway; and the latter on the ground that the Galleries, which are to be built over the back part of the Theatre, will most seriously damage their premises by shutting out their light and air.

The Committee, with the assistance of the Architect, have thoroughly investigated the objections raised to the plans, and, with a view to accommodating the tenants in the adjoining Buildings, Mr. Salter has modified the plans to a small extent by setting forward the two Galleries of rooms from two to three feet, so as to afford a somewhat better angle of light to their lower windows, in return for which they agree not to object to a cartway over the space reserved for light and air, in which case there is reason to believe that the Duchy of Lancaster will allow the Colleges to make use of the reserved space for the desired purpose on payment of a nominal annual rent of about 20*s.*

The Committee have carefully considered the Architect's suggested modifications in the plans, which will not reduce the size of the rooms nor affect the general arrangements of the Building, and which will entail no additional expense over the amount originally estimated by him as the probable cost of the buildings, and have determined, in view of the great advantage of acquiring the right of way over the reserved piece of ground, to recommend to the two Colleges the adoption of the modifications suggested by the Architect and shown in the five plans initialed by Mr. Marshall as Chairman of the Committee, and in the Sectional plan initialed by Mr. Chatfeild Clark, the architect to the Duchy of Lancaster.

The Committee are now engaged in making enquiries in respect to the fittings and apparatus which will be needed for the laboratories; and in order to enable them to obtain the best information on the several subjects, they have adopted the following resolution, viz.:—

That it be recommended to the two Colleges to authorize the Committee to expend a sum of money not exceeding £50 in Preliminary Enquiries in respect to the internal arrangements, fittings, and apparatus of the new Rooms intended for "original research as to the nature, causes, and prevention of Disease, and experimental research on the chemical properties, physiological action, and therapeutical uses of remedies."

Recommend expenditure of £50 in inquiries as to necessary internal arrangements &c.

EXTRAORDINARY MEETING OF THE COUNCIL ON THE 19TH OF JANUARY, 1888.

Council adopt reply to Statement from Association of Fellows.

The Council, after full discussion at this and two previous Meetings, adopted the following reply to the letter of the 23rd of November 1887 from the Lords of the Council, and the accompanying Statement, presented to the Lord President on behalf of the Association of Fellows on the subject of the Supplemental Charter, and directed that the same, together with the letter and Statement, be entered on the Minutes as follows, viz.:—

Letter from the Privy Council.

Council Office,
23rd November, 1887.

Letter from Privy Council.

SIR,—With reference to the Petition lodged at this Office by the Royal College of Surgeons of England for the grant of a Supplemental Charter, I am directed by the Lords of the Council to transmit to you the enclosed copy of a statement relating thereto, signed by Mr. George Pollock on behalf of the Association of the Fellows of the College; and I am to request that you will move the Council of the College to favour Their Lordships with their remarks in regard to the several points raised by the Association.

I am, Sir,
Your obedient Servant,
HERBERT M. SUFT.

The Secretary,
Royal College of Surgeons of England,
Lincoln's Inn Fields, W.C.

STATEMENT presented to the LORD PRESIDENT on behalf of the ASSOCIATION OF FELLOWS, in reference to the Application for a SUPPLEMENTARY COLLEGE CHARTER.

Statement on behalf of Association of Fellows.

The Governing Body of the Royal College of Surgeons of England, called formerly the Court of Assistants, and later the Council, was, before the year 1843, self-elected and autocratic. No meetings of the Members of the College for the discussion of Collegiate affairs had been held, and the attempt to hold a meeting (in 1831) was suppressed by force.

In 1843 a Charter was granted, by which a new order of Members was created, to be styled Fellows, from whom the Members of the Council were in future to be chosen, and by whom they were to be elected.

At first two batches of about 500 were nominated by the Council from amongst the Members; but after this, an Examination was instituted, by which other Members and other persons could, after having passed a certain curriculum of Surgical education, and fulfilled other conditions prescribed by Charter or Bye-law, obtain the Fellowship.

Charter of 1843, § 3, 4, 5.

Under a subsequent Charter (1852) the Council was empowered to grant the Fellowship without Examination to all persons who were Members in 1843, at certain dates therein specified, as well as in each subsequent year to elect two Members of not less than twenty years' standing.

Charter of 1852, § 1.

Thus were created two orders of Fellows: those by Examination, and those by election; but the existence of the latter order has always been felt, not only by the other Fellows, but by the Profession at large, as an anomaly, necessary, perhaps, in the first instance, but derogatory to the status and academic value of the Fellowship.

This anomaly it was hoped would be put an end to as the Members of 1843 died out.

With the exception of the privilege of voting in person for members of the Council, as aforesaid, the Fellows have no share or control in the Government of the College, and the Members cannot be said to have any Collegiate rights whatever: and this we submit is anomalous and unjust.

Fellows and Members are equally essential parts of the Body Corporate and Politic, while the Council is the governing body of the College. Accordingly the Fellows and Members have for a long time demanded the privilege of meeting annually to discuss and adopt or reject the Report of the Council, and that no alteration in the constitution or in the relations of the College, or in any of its Bye-laws, shall be made without their consent, and that the election of the President should be in their hands. The following Resolutions were carried at the Meeting of Fellows and Members held at the College on March 24th, 1884:—

1. "That in the opinion of this meeting it will materially con-

duce to the welfare of the College that the Fellows and Members should be invested with a larger share of its management."

2. "That it is desirable that no alteration in the constitution or relations of the College shall be effected without the consent of the Fellows and Members convened to discuss such alteration."

3. "That there shall be an annual meeting of the Fellows and Members, at which the Annual Report of the Council shall be presented, received, and adopted."

4. "That at such meeting the President for the ensuing year be elected by a majority of the Fellows present."

These demands were formulated in a meeting held at the College on March 24th, 1884, but they were rejected by the Council. A Meeting of Fellows and Members has been held in each subsequent year, but not as a matter of right, and no power has been granted to the meeting over the proposals or actions of the Council.

In consequence of this rebuff, the present Association of Fellows was founded in order to urge these claims. It comprises about a quarter of the whole body of Fellows, including several of the past and present Members of Council, and its objects command the sympathy of many Fellows who are not enrolled in the Association.

Another Association has been formed of the Members of the College, to procure for Members, under certain restrictions, the right to vote for, and sit in the Council. These restrictions would leave the Fellows an undisputed superiority in the management of the College, and the Association of Fellows has, as a body, supported that of the Members, though, it is right to add, not unanimously.

With regard to the present proposals for a new Charter, the Association of Fellows protests as strongly as possible against those which have reference to the Fellowship.

§ 2 and 3 of the abstract of the Petition to the Queen as quoted on page 31 of the Report of the College 1887.

To enable the Council to determine the conditions of admission to the Fellowship by Examination by "Rules and Regulations" instead of, as at present, by Bye-Laws, would enable the Council to alter and probably to lower the standard of Examinations without any effectual check either from the Fellows or from any public authority. That this is no imaginary danger is shown by experience. Some years since a proposal of the kind came accidentally to the knowledge of three of the Examiners of the College, Mr. Savory (now president of the College), Mr. Cooper Forster, and Mr. Holmes, and was only defeated by a personal canvass made by those gentlemen of all the Fellows by Examination, which showed so unanimous a feeling among the Fellows against the proposed change, that the Council at the last moment gave way.

Had the Council been able to proceed by Rules and Regulations, the change might have been made without any such opportunity for opposition.

Again, no longer ago than last year a proposal was attributed to an eminent member of the Council to admit by a vote of the Council fifty Members each year to the Fellowship—a measure which, if it had been carried out, would have destroyed the academic value of that Diploma. This proposal was vigorously resisted

by the Association, and did not pass the Council. The following resolution of the Association refers to this matter.

February 1st, 1886.

It being understood that a committee of the Council of the Royal College of Surgeons is considering a proposal made by one of the members of the Council to the effect that 50 Members of the College shall be elected annually, without Examination, to the Fellowship, the Committee of the Association of Fellows, though favourable to the institution of increased facilities for Members of the College becoming Fellows by Examination, hereby expresses its disapproval of any attempt to lower the acquired academical status of the Fellowship, and pledges itself to resist such to the uttermost.

This was communicated to the College, and published in the Medical Journals.

But it is obvious that, at a future time, if a mere resolution of the Council could alter the conditions of admission to the Fellowship, any such proposal might be adopted before effectual opposition could be made.

To the proposal that the Council should have the power of admitting 10 Members annually to the Fellowship without Examination we object most strongly on the same grounds.

"IV. That, in the opinion of this meeting, the first method recommended by the Council for widening the basis upon which the Fellowship is obtained tends to lower the academic status of that Diploma, and, in the interest of Surgical education, is not advisable."

* This is the Resolution referredtobelow, passed at the General Meeting, Nov. 4th, 1886.

This proposal was condemned in the strongest terms at the General Meeting of Fellows and Members, held at the College on November 4th, 1886 *, on the motion of a Member seconded by another Member, and adopted unanimously by the Meeting.

It is an illustration of the arbitrary disregard shown by the Council for the opinion of their constituents, that a proposal thus condemned alike by the Fellows and Members should be still thrust on the profession.

For which reasons we pray your Lordship not to recommend the Queen to assent to a Charter containing these clauses.

"5. To provide that Fellows may vote in the Election of the Council either in person or by voting-papers, such papers to be signed, authenticated, and delivered in such a manner as the Council shall from time to time think fit and direct. No Election of Members of Council to be valid unless there shall be present at the meeting for the purpose of such Election such number of Fellows as the Council may from time to time think fit and direct."

* This is the Clause of the proposed new Charter, referred to below.

With regard to the clause * permitting the Fellows to vote by voting-papers, the Association would remark that it is a reform which has been demanded by the Fellows for at least twenty years, and has now only been extracted from the Council by persistent agitation, both by individual Fellows and by an organized body of Fellows.

The long time required for so trivial an advance may show your Lordship how much longer a time it would take to extract any substantial reform from the Council, if the present opportunity be lost.

At present, however, the Council are obliged to apply for a new Charter, since the clause in former Charters, limiting the amount of real property which the College is entitled to hold, is systematically violated, and therefore some new Charter is a necessity.

If, therefore, your Lordship should advise the Queen to refer back the present Petition for reconsideration, we do not doubt that a more satisfactory draft Charter will soon be submitted.

Our main object, however, is to procure the insertion into the new Charter of provisions securing to the Fellows and Members a real control over the proceedings of the Council, in accordance with the resolution passed at the General Meeting of November 3, 1887, in the following terms :—

"That this Meeting disapproves of the application for a new Charter, which, First: does not confer electoral powers upon Members of the College, and the right to be eligible to sit in the Council, in accordance with the resolution passed at the General Meeting on November 4, 1886, viz.:—

"1. That, in the opinion of this Meeting, it would conduce to the welfare of the Royal College of Surgeons, and would tend to promote the interest of Medical polity and Education—(1) If Members of the College were empowered to take part (separately, or conjointly with the Fellows) in the election of Members of the Council; (2) If Members of the College were eligible to sit in the Council, provided—(*a*) That no Member of the College shall be entitled to vote till he have been such Member for a period of ten years, (*b*) That no Member of the College shall be eligible to sit in the Council until he have been such Member for a period of twenty years, and (*c*) That not more than one fourth of the Council shall consist of Members of the College who are not also Fellows.

"And, Second: which does not provide that no alteration in the constitution of the College, or in any of its Bye-Laws, shall be effected without the consent of the Fellows and Members invited to discuss the same in accordance with the resolution passed at a General Meeting held on March 24th, 1884, and re-affirmed at the Meeting on October 29th, 1885."

The necessity for some such control is shown by the arbitrary power now assumed by the Council over the large finances of the College, which they now dispose of without any consultation with the Fellows and Members;

The large sums so disposed of are illustrated by the annexed

"The Committee, with a view to carrying out an extension of the College premises in regard to the Museum, Library, and work-rooms, have had under their consideration additional plans prepared by Mr. Salter, together with approximate estimates showing the cost of the several proposed additions to the College Buildings, amounting in the aggregate to

£53,700; and having considered the same, the Committee have to submit to the Council for approval the following recommendations, viz.:—

Resolution of the Council, quoted on p. 16 of their Report for 1887.

"1. That the College Premises be extended in the manner proposed in the first Report; but that the alterations thereby occasioned be carried out gradually, and be subject to such modifications in matters of detail as the Council, on the recommendation of the Committee, may hereafter approve.

"2. And that the Committee be authorized to make arrangements for the erection, with as little delay as possible, of an additional Museum, as shown in the plans, on the ground occupied by the back premises of Nos. 43 and 44 Lincoln's Inn Fields, abutting on Portugal Street, and for the construction of an additional storey to the main Building of the College to accommodate the new Workrooms, at an approximate cost of £10,000 for the new Museum, and £5000 for the new Workrooms."

"That, for the present, this Council do not spend more than £50,000 of the Erasmus Wilson Bequest."

As well as the following from p. 34 of the same Report.

by the equally arbitrary way in which they settle such questions as the Amalgamation for Examination purposes with the College of Physicians, and the exclusion from that Scheme of the Society of Apothecaries, whereby a second Examining Body has been set up in London, contrary to the opinion expressed at the General Meeting of the Fellows and Members on November 4th, 1886, and in spite of the remonstrances of the General Medical Council; (The resolution of the Council of the College is in the following terms:—

"Inasmuch as the Examination, conducted by the Examining Board in England, constituted by the Royal College of Physicians of London and the Royal College of Surgeons of England, is a complete qualifying Examination in Medicine, Surgery, and Midwifery, conferring the right of registration under the Medical Act, a combination of the two Colleges with the Society of Apothecaries is, for Examination purposes, unnecessary, and, in the unanimous opinion of the Committee, is also undesirable.")

That the Council* being of opinion that it would be contrary to the interest of the public to have two competing Examining Boards sitting in London, and that it is desirable that the Royal College of Physicians of London and the Royal College of Surgeons of England and the Apothecaries Society of London should arrange to hold a Qualifying Examination conjointly, strongly recommend those Medical Authorities to reconsider their position with a view to such an arrangement; and meantime defer coming to a decision on the application of the Apothecaries Society of London of the 12th February."

* *i. e.* the General Medical Council.

Annexed is the Appeal made by the General Medical Council to the College of Surgeons for a reconsideration of the matter. An appeal which was abruptly refused.

and the same is shown also by the Scheme now in progress for acquiring powers along with the College of Physicians to grant degrees in Medicine, a Scheme which may or may not be acceptable to the general body of the College, but on which they have never been consulted, though the matter is one which touches their interests most nearly.

Finally, we would call your Lordship's attention to the prayer of the Association that the Election of the President may be in the hands of the Fellows. Until within the last two years the office of President was simply passed round from one Member of Council

to the next in Seniority, without any discrimination of fitness; and although this routine has now been so far set aside as that the present President is holding office for the third year, the Association feels that the profession have still no guarantee that this great office will in future be given away, as it ought to be, to the worthiest person, and cannot have, till the Election be placed in the hands of the general body of the Fellows.

Many more reasons might be urged in support of our contention if we did not fear to weary your Lordship; but we trust that the foregoing will be sufficient to induce you to advise the Queen to remit the Petition to the Council of the College for reconsideration.

Signed on behalf of the Association of the Fellows of the Royal College of Surgeons,

(Signed) GEORGE POLLOCK,
President of the Association.

Reply of Council.

REPLY of the COUNCIL of the COLLEGE to the Statement presented to the LORD PRESIDENT on behalf of the Association of Fellows.

THE Royal College of Surgeons of England consists of about 18,000 Members, of whom about 1200 are Fellows. The Governing Body of the College consists of a Council of twenty-four Fellows, elected by the Fellows as directed by the Charters of 1843 and 1852. Three Members of the Council retire every year and are eligible for re-election.

The Fellowship Examination was instituted in the interest of surgical education, and to constitute a body from whom and by whom the Council should be elected. The Fellowship represents a higher grade than the Membership. In order to obtain the Fellowship, a longer time must be devoted to professional study than is required for the Membership, and a further and more difficult Examination must be passed.

In reply to the complaint of some Members that certain privileges are exclusively in the hands of the Fellows, it should be understood that it is open to Members of the College to become Fellows. Access to the Fellowship Examination has been facilitated to such an extent that any Member of two years' standing, who has been engaged in the study (or the study and practice) of the profession during that period, may present himself for it without any further special curriculum of professional study involving additional expense.

It has of late been repeatedly affirmed that the Members have no privileges within the College. But such a statement is not correct. The Members have the privileges of admission to the Museum, to

the Library, and to all Lectures delivered within the College walls, of competing for the College Prizes, and of being eligible for certain Examinerships and Lectureships. These privileges (which include all those of the Fellows with the exception of the election of and the being elected to the Council, and of being eligible as Examiners for the Fellowship) may compare favourably with those of the Graduates, not Members of Convocation or the Senate of Oxford or Cambridge respectively.

The Authors of the Statement to the Lord President appear to complain of the appointment of a number of Fellows by election; but in the first instance this was necessary, as the leading Surgeons of England could hardly have been subjected to examination. The present proposal of the Council to obtain power to extend the number of Members annually elected to the Fellowship without examination from two to ten, as a maximum, was mainly to meet the view of some that certain Members of the College were entitled to the honour of the Fellowship by distinguished services in their profession, and yet were too advanced in life to be subjected to any further examination.

The proposal on behalf of the Association, that Members of ten years' standing should take part in the election of the Council, and that Members of twenty years' standing should be eligible as Councillors, would substitute mere seniority for professional distinction, as proved by Examination or by distinguished professional merit.

If no Bye-Law could be made or modified without the consent of a General Meeting of Fellows and Members, the delay and difficulty would be so great as seriously to interfere with the efficient conduct of business. The process by which alone a Bye-Law is made or modified is already a very elaborate one, and affords, in the opinion of the Council, ample safeguard against its abuse, and in fact every proposal for such a change is made public before it is submitted to the Secretary of State for his sanction.

To the suggestion that the election of the President should be in the hands of the Fellows at large, the Council submit the following objections, viz.:—

(*a*) That there is no evidence that the great body of the Fellows themselves desire this change.

(*b*) That no arrangement by which it could be carried out has been suggested that would not be in itself objectionable, and in many instances so disagreeable to the Candidates themselves as to deter some of the most distinguished from coming forward.

(*c*) That the Council, who are chosen by the Fellows, must of necessity be better judges of the qualification of any one of their number for the office of President than the general body of Fellows.

(*d*) That election by the Fellows might in some instances tend to interfere with the independent action of those members of the Council who might aspire to the office of President.

(*e*) That it might lead to contested elections, and thereby encourage the practice of personal canvassing, of extorting pledges, and of holding out promises.

(*f*) That it would practically place the election, not in the hands of the body of Fellows generally, but of a comparatively small number who would make themselves active in the business of the election.

(*g*) That the system of annual election by seniority merely, which until recently prevailed, and against which strong objection has existed in the Council itself, has been discontinued, the present President being now in his third year of office.

The Council would submit that the College is a scientific, educational, and professional institution, and not a political one. Their earnest desire is to uphold surgical education, and, with this object in view, to encourage Members to take the Fellowship.

The great purpose for which the College exists being the promotion of the science and art of Surgery, the chief means at present at its command for effecting this purpose would be seriously impaired if changes such as those proposed were carried out.

The results of the inquiries made by the Council show (see annexed return) that the majority of the Fellows are opposed to the claims set up on behalf of the Members, and there is no evidence before the Council that the majority of even the Members themselves are in favcur of them.

The Council think it right to point out the following instances, among others, of inaccuracy in the Statement which has been drawn up on behalf of the "Association of Fellows."

It is stated that the necessity for some control over the actions of the Council is shown "by the arbitrary way in which the Council settle such questions as the Amalgamation for Examination purposes with the College of Physicians, and the exclusion from that Scheme of the Society of Apothecaries," and also "by the Scheme now in progress for acquiring powers along with the College of Physicians to grant Degrees in Medicine, a Scheme which may or may not be acceptable to the general body of the College, but on which they have never been consulted, though the matter is one which touches their interests most nearly."

At a Meeting of the Fellows and Members at the College on the 24th of March, 1884, the following Resolution was passed, viz.:—

"That this Meeting of Fellows and Members of the Royal College of Surgeons of England begs most respectfully to recommend that the Council of the College do obtain a Charter to enable the Council to combine with the Royal College of Physicians of London, with a view to the amalgamation of the two Colleges into one great College of Medicine, to be endowed with authority to examine and grant Licences to practice in all branches of Medicine and Surgery, and to confer on its Licentiates the Degrees and titles of Doctor of Medicine and Master of Surgery."

The Scheme proposed by the two Colleges is in accordance with this resolution.

So that, in taking the steps complained of, the Council are acting in harmony with the desire expressed by the Fellows and Members at their general meeting, and since confirmed by a memorial presented to them containing over six hundred signatures.

Again it is affirmed that "no longer ago than last year a proposal was attributed to an eminent member of the Council to admit by a vote of the Council fifty Members each year to the Fellowship—a measure which, if it had been carried out, would have destroyed the academic value of that Diploma. This proposal was vigorously resisted by the Association, and did not pass the Council."

The question here alluded to has never been discussed by the Council.

Should the Lords of the Council desire any further information, the Council of the College will wait on their Lordships.

WILLIAM S. SAVORY.
President.

19th January, 1888.

ORDINARY MEETING OF THE COUNCIL ON THE 8TH OF MARCH, 1888.

Ordinary Council in March 1888.

A letter was read dated the 29th of February 1888, from Mr. Peel, transmitting, by direction of the Lord President of the Council, to be laid before the Council of the College, a copy of a "rejoinder" which the Committee of the Association of Fellows have forwarded to his Lordship, relating to the reply from the Council of the College, adopted on the 19th of January last, with respect to the statement on behalf of the Association on the subject of the application by the College for a Supplemental Charter.

Letter read from Privy Council enclosing copy of "rejoinder" from Committee of Association of Fellows to reply from Council of College on subject of College Charter.

The "rejoinder" refered to in such letter was also read as follows, viz.:—

"Rejoinder" read.

To the Right Honourable the Lord President of the Privy Council.

"Rejoinder."

THE Committee of the Association of Fellows of the Royal College of Surgeons have seen in the Medical Journals of February 4th the "Reply" of the Council of the College to the "Statement" presented by the Association to the Lord President. This "Reply" is in so many respects misleading that they are reluctantly compelled to ask your Lordship's attention to the ensuing rejoinder.

The first clause of the "Reply" deals with the number of Members and Fellows. Without criticising the accuracy of these statistics, we would call your Lordship's attention to the fact that

the number of Fellows, who are the elective body, has been for some time steadily diminishing. In the year 1874, 1,295 Fellows appeared in the College Calendar, and this number has diminished slightly, but almost uniformly, every year, till in 1887 it was only 1,116. The number of Fellows by Examination in the year 1887 was 645. It should be remembered that the chief means by which the Fellowship examination is maintained is the requirement now general at all large London and many provincial hospitals, that their Surgeons must be Fellows of the College. There have, however, recently arisen many other surgical qualifications of rival importance, such as the Mastership in Surgery at some Universities. If these were admitted by the hospitals as qualifying for their appointments (which is highly probable), the supply of Fellows by examination of the College of Surgeons would probably decline rapidly; and then the privileges which the Council are so anxious to confine to the Fellows would be in the hands of a body evidently too small to administer so important an institution. Nor would the defect be remedied by the proposal of the Council of the College to make large annual elections to the Fellowship, inasmuch as, even if the selections were always judicious, such elected Fellows could scarcely be recognized as representative of the highest surgical culture.

We are unable to agree with the second and third clauses in the "Reply" dealing with the objects of the Fellowship, and stating that all Members of two years' standing can obtain it by examination.

Though it is true that the Fellows constitute the electoral body, the following extract from the Autobiography of Sir B. Brodie, to whose initiative the Fellowship owed its origin, will show that this was not its sole object:—

"The object of this institution is to ensure the introduction into "the profession of a certain number of young men who may be "qualified to maintain its scientific character, and will be fully "equal to its higher duties as Hospital Surgeons, teachers, and "improvers of physiological, pathological, and surgical science "afterwards. With this view, if they have not University degrees, "they are required to undergo a preliminary examination in classics "and mathematics, while their professional education having been "continued for a longer period of time, they are expected to show "that they have a more perfect acquaintance with those sciences "which are the foundation of medical and surgical knowledge than "can be expected of the great majority of those who are candidates "for practice. If this system be properly and honestly carried "out, I apprehend that the result will be that the Fellowship of "the College of Surgeons will be the most honourable distinction "that is offered to the junior members of the medical profession." —(Sir B. Brodie's Works, vol. i., page 108.)

This shows, beyond question, that the Fellowship was never *intended* for the same class of men as the ordinary Membership, which is, as Sir B. Brodie says, a minimum qualifying examination. It was intended as a professional distinction—a mark of honour;

and it is a creditable feature in the management of the College that the character of the Fellowship Examination has been upheld. But it is a mockery to say that any Member of two years' standing may present himself for the Examination, when it is perfectly well known that only the very small proportion who have had the time, money, and talent necessary to prepare themselves have any chance of passing. The "Reply" says the Fellowship can be obtained without additional expense. Few, indeed, of the Candidates do not find it necessary to spend money on tuition. All must spend their time, which is money to a young surgeon or his friends. As evidence of this, we may say that last year of 142 Candidates who presented themselves for the First Examination for the Fellowship, 67 (or 47 per cent.) were rejected; and of 58 who presented themselves for the Final Examination, 27 (or 46·5 per cent.) were rejected. All these Candidates had gone through the special training required by the College Regulations.

The "Reply" then details the so-called privileges of Members. Most of these are merely the ordinary rights which no member of any Society can be denied, of entrance into the common rooms, and some of them (*e. g.* admittance to the Museum) rest not on the pleasure of the Council, but on Acts of Parliament. But as to the eligibility of Members, who are not Fellows, for the Examinerships, the "Reply" is most misleading, to use no stronger term. It is true that certain of the Junior Examinerships have lately (and since the beginning of the agitation carried on by this Association) been thrown open to Members; bnt it is distinctly the reverse of the fact to say that the Members are allowed admission to all Examinerships except those for the Fellowship. They are not eligible on the Court of Examiners, the only body which admits to the Diploma of Member.

The authors of the "Statement" to the Lord President made no complaint of the original creation of an Order of Fellows by election. On the contrary, we would remind your Lordship that we merely gave a critical explanation of the transaction, and expressed the opinion that no such order should be perpetuated now, but that the only entrance to the ordinary Fellowship should be by examination.

The next clause, which relates to the proposal that a Member should be qualified by a certain seniority before he can vote and before he can become a candidate for a seat in the Council, seems strange to us. Such seniority qualifications exist in the present constitution of the College, and will continue to exist even if the modifications proposed by the Council are introduced into the Charter. But the weakness of the argument of the "Reply" on this particular is so obvious that we need not labour the point.

Still stranger is the clause about Bye-Laws. The "Reply" states that "delay and difficulty" would be caused in the passing of a bye-law by an appeal to the Fellows and Members. We say, on the contrary, that such an appeal need not involve one day's delay. In the "very elaborate process" of making a bye-law there

are intervals between one act of the Council and another amply sufficient for calling a General Meeting, so that no delay would occur if the Council chose to call this Meeting in the interval (at least a month) between the first vote at which the bye-law is accepted and the next Meeting of the Council to confirm this vote. That the proposal would entail "difficulty" in passing bye-laws condemned by the general opinion of the profession, such as that relating to the Fellowship Examination, referred to in our "Statement," we cordially admit, and for that reason we press it on your Lordship's consideration. Even, however, if the progress of new bye-laws were to be somewhat slower, where would be the harm? The Council has had a working experience of 87 years, and it is scarcely conceivable that any occasion should arise for the urgent and hasty alteration of a bye-law. And we cannot forbear again to remind your Lordship that the Fellows and Members are bound to observe the Bye-laws without at present the power of opposing any addition or alteration made in them.

With regard to the election of President, we may say, without fear of contradiction, that the routine method uniformly followed up to the time of the first re-election of the present President in July, 1886, is generally disapproved, and that the fact that the President has now been twice re-elected, does not afford any guarantee that the former custom will not be resumed as soon as it is thought that public interest in the matter has subsided. With regard to the objections to our proposal stated in the "Reply," we answer (*a*) that while the great body of the Fellows may never have been specifically consulted in the matter, the general principle was adopted at the meeting of Fellows and Members held in 1884, and by every Member of this Association; (*b*) that the proposed arrangement is exactly that which prevails for Members of Council, and which has not proved an insurmountable obstacle to the present Councillors coming forward as Candidates, nor has the fact that the President of the College of Physicians is elected by a General Meeting of the Fellows prevented the most eminent men in the profession from coming forward for the Presidency of that body; (*c*) that if the Council are the best judges of the qualifications of their own Members for the Presidency, they have never exercised any such judgment, but have, up to eighteen months ago, passed the office round in rotation; (*d*), (*e*), and (*f*) that these supposed objections apply equally to the present method of election to the Council, and from their not producing any of the supposed results, may be inferred to be imaginary.

We cannot but most earnestly protest against the assertion in the "Reply" that the College is not a "political" institution. A body having functions and privileges derived from the State, and having such important duties and responsibilities both to the public and to individuals, cannot be called *private*, and its well-being and good government are matters of general concern.

As to the results of the enquiries made by the Council, they are perfectly worthless for the present purpose, since the opinion of

the Fellows was not asked as to the actual proposals of either the Association of Fellows or that of Members. Still, as we have shown to your Lordship, the result was clearly to prove that the majority of the Fellows have expressed no objection to the principal claims of the Members. The number of the Members who have signed the Petition presented to your Lordship (4665) is, if not a majority, we believe, nearly half of those in the United Kingdom who can be reached through the agency of the Post Office.

With regard to what in the "Reply" is brought forward as an instance of the inaccuracy of our "Statements," we are justified in retorting that the inaccuracy is not ours. We never said that the principle of a union between the College of Surgeons and that of Physicians had not been sanctioned by a resolution passed at a General Meeting. What we complained of was that the completed scheme had not been submitted to the whole body of the College, as it was to the Fellows of the College of Physicians; and that a portion of it so vitally important, as the exclusion of the Society of Apothecaries, had been insisted on, in spite of the protest, not only of the Fellows and Members (also assembled in General Meeting), but of the General Medical Council. It is, however, surprising to find the Council of the College now sheltering themselves under the authority of the resolution passed at the Meeting in 1884, which was proposed without notice, and was carried by twelve votes against six, at the end of a long meeting, when the room was nearly empty, while they treat with entire indifference the resolutions lately passed, with only either one or two dissentients, at one of the fullest meetings that ever assembled in the Theatre of the College.

With regard to the proposal in the Council for admitting 50 Members a year to the Fellowship, it was no doubt never brought on for discussion—a result which we have reason to believe was largely due to the opposition of this Association. But the fact that such a proposal was made, and (as we have also reason to believe) that it was suggested to elect even 100 Members annually to the Fellowship, shows how strong the temptation may be for the Council to resort to measures of this kind, by which the order of Fellows can be recruited without any regard to the "professional merit" of the persons elected. The present proposal of the Council is only somewhat less objectionable; and the "Reply" of the Council itself tacitly admits that it has been emphatically condemned, by the voice of their own Members, as inconsistent with the high objects for which, according to Sir B. Brodie, the Fellowship was instituted.

On all which grounds we submit to your Lordship that the "Reply" of the College leaves our "Statement" entirely unrefuted, and confirms our contention that the Petition of the Council for a modified Charter should be referred back to them for re-consideration and discussion with the general body of their constituents.

Privy Council consent to favourably consider grant of Supplemental Charter subject to modifications, and ask Council whether they accept the same on such terms.

A letter was read dated the 26th of April, 1888, from Mr. C. L. Peel, stating, by direction of the Lords of the Council, that their Lordships are ready to consider favourably the grant to the College of some further powers to hold property, and for amending the existing Charters in regard to points in which there is no controversy with the Fellows and Members of the College, omitting from the Supplemental Charter the controverted points, viz. those contained in Sections 2, 3, 4 and 5, and inquiring whether the College will be willing to accept the Supplemental Charter on this modified basis.

The Council thereupon adopted the following resolution, viz.—

Council accept Supplemental Charter as modified.

Council approve and adopt Report respecting College Lectures.

The Council approved and adopted the following Report from the President and Vice-Presidents on the arrangements for the College Lectures, viz.:—

REPORT, dated the 3rd of April, 1888, from the President and Vice-Presidents on the Arrangements for the College Lectures. Report.

The President and Vice-Presidents have to report that, in pursuance of the resolution of the Council of the 9th of June, 1887, they have taken into consideration "the propriety of re-arranging the Lectures annually delivered in the College, and of making them more serviceable to the Profession;" and that they are not prepared to recommend to the Council that any alteration should be made in the arrangements for the Lectures, believing that the plan recently adopted of dividing the Lectures amongst several Professors has been to some extent successful, as evidenced by the increased attendance upon them, and that it would therefore be inopportune at present to make any change in that plan. President and Vice-Presidents do not recommend any alteration at present in arrangements for Lectures.

THE MUSEUM.

THE Hunterian Collection, which forms the basis, and still a large proportion, of the contents of the present Museum of the Royal College of Surgeons of England, was originally arranged in a building which its Founder, John Hunter, erected for it in 1784, behind his house in Leicester Square.

John Hunter died October 16th, 1793, aged 65. By his will he directed the Museum to be offered in the first instance to the British Government, on such terms as might be considered reasonable, and in case of refusal to be sold in one lot, either to some foreign state, or as his executors might think proper.

In the year 1799 Parliament voted the sum of £15,000 for the Museum, and an offer of it being made to the Corporation of Surgeons, it was accepted on the terms proposed by Government*.

In 1806 the sum of £15,000 was voted by Parliament in aid of the erection of an edifice for the display and arrangement of the Hunterian Collection; a second grant of £12,500 was subsequently voted, and upwards of £21,000 having been supplied from the funds of the College, the building was completed in Lincoln's-Inn-Fields, in which the Museum was opened for the inspection of visitors in the year 1813.

* The following are the Terms and Conditions on which the Hunterian Collection, purchased by Parliament, was delivered to the late Corporation of Surgeons; which Corporation having become dissolved, the Members thereof were re-incorporated by Charter, dated the 22nd day of March, 1800, under the Title of The Royal College of Surgeons in London:—

1st. The Collection shall be open Four Hours in the Forenoon of two days every week for Inspection and Consultation of the Fellows of the College of Physicians, the Members of the Company of Surgeons and Persons properly introduced by them; a Catalogue of the Preparations, and a proper Person to explain it, being at those times always in the Room.

2nd. That one Course of Lectures, not less than twenty-four in number, on Comparative Anatomy and other subjects, illustrated by the Preparations, shall be given every year by some Member of the Company.

3rd. That the Preparations shall be kept in a state of Preservation, and the Collection in as perfect a state as possible, at the Expense of the Corporation of Surgeons, subject to the annual Inspection and Superintendence of the Trustees.

4th. That there shall be a Board of Trustees, to consist of sixteen (increased to seventeen by the Lords of the Treasury in 1856) Members, by virtue of their Public Offices, and of fourteen others, to be appointed, in the first instance, by the Lords of the Treasury, and afterwards to be elected, as Vacancies may happen, by a Majority of the remaining Trustees.

5th. That the Museum shall always be open for the Inspection of all or any of the said Trustees, who are to take care that the Corporation of Surgeons perform their Engagements respecting the said Collection. That a day be appointed for the annual Inspection of the Museum, by the Trustees acting collectively as a Board; and that they are also to have quarterly Meetings, for the transacting of any Business relative to the Museum, and for the filling up of such Vacancies as may happen in the number of the Trustees; and that the Corporation of Surgeons shall engage some Person to officiate as Secretary to the Board upon such occasions, and to issue previous Notice to the Members, in which he is to state particularly whether any Vacancies are to be filled up by new Elections.

In consequence of the large number of additions the building became too small for the proper display and arrangement of its contents and more space being at the same time required for the rapidly increasing Library, the greater portion of the present building was erected wholly at the expense of the College in 1835, at a cost of about £30,000, and the Hunterian and Museum Collections were rearranged in what are now termed the Western and Middle Museums, which were opened for the inspection of visitors in 1836.

Further enlargement of the building having become necessary by the continual increase of the Collection, the College in 1847 purchased the extensive premises of Mr. Alderman Copeland, in Portugal Street, for the sum of £31,000, and in 1852 proceeded to the erection of the Eastern Museum, at the expense of £35,000. Parliament granting £15,000 in aid thereof. The re-arrangement of the specimens was completed, and the additional portion of the building opened to visitors in 1855.

The Hunterian Collection was estimated to consist of 13,000 specimens, distributed under the following heads:—

Physiological Department, or Normal Structures.

Physiological preparations in spirit	3745
Osseous preparations	965
Dry do.	517
Vascular do.	1365
Fossils:—	
Vertebrate	1215
Invertebrate	2912
Plants	292

Pathological Department, or Abnormal Structures.

Preparations in spirit	1054
Dry preparations (including bones)	625
Calculi and concretions	536
Monsters and Malformations	218
Microscopic preparations	215

Of the additions by which the size and value of the Collection have been so materially increased since it came into the possession of the College, very many have been presented by Fellows and Members of the College, and other persons interested in scientific pursuits. Among the largest contributions from this source have been the Collection, consisting of 847 specimens, presented in 1811 by Sir William Blizard, and a valuable series of Pathological specimens presented in 1851 by Sir Stephen L. Hammick. At the same time the Council of the College have availed themselves of various opportunities as they have occurred to purchase specimens of interest, especially at the dispersion of private anatomical and pathological museums, as that of Sir A. Lever in 1806, of Mr. Joshua Brookes in 1828, of Mr. Heaviside in 1829, Mr. Langstaff in 1835, Mr. South in the same year, Mr. Howship and Mr. Taunton in 1841, Mr. Liston in 1842, Mr. Walker in 1843, and, deserving of especial mention on account of the great number and value of the specimens acquired, those of Sir Astley Cooper in 1843 and Dr. Barnard Davis in 1880.

The Histological Collection, of which the 215 Hunterian specimens (prepared by Hewson) constitute the nucleus, was chiefly formed by the late Professor Quekett, with considerable additions by purchase from Dr. Tweedy J. Todd, Mr. Nasmyth,

and Professor Lenhossek. It now contains upwards of 12,000 specimens, all arranged and catalogued so as to be readily available for reference.

The superintendence of the Museum is confided by the Council of the College to a Committee of its Members, which Committee has held eleven meetings during the last year.

A summary of the progress made in the preservation, arrangement, and augmentation of the Collection will be found in the following Report.

ANNUAL REPORT OF THE CONSERVATOR TO THE MUSEUM COMMITTEE.

(Presented July 2nd, 1888.)

Department of Pathology.

The additions during the year to this Department quite equal the usual standard both in number and general interest.

A careful revision of the Pathological Collection has been made, and a list of some of the deficiencies has been printed on cards. These will be distributed to the pathologists at the Metropolitan and Provincial Hospitals, who, it is hoped, will aid in perfecting the Pathological section of our Museum by sending specimens.

Mr. Eve has prepared and seen through the press another Appendix to the Catalogue, containing descriptions of all the specimens added during the current year, with those of 1887 which could not be included in Appendix I., published last spring. These descriptions will be pasted in the interleaved Catalogues.

The Council, with a view to facilitate the collection of specimens and further extend the Pathological section, agreed to appoint an Assistant Pathologist; and Mr. J. H. Targett was recently selected to fill that office.

Department of Comparative Anatomy.

The most noteworthy additions to the Osteological series are three human skeletons of persons aged 14, 16, and 18 years respectively, illustrating the development of the bones at these ages; three crania from the

Two Zoozoos presented by Mr. E. Long Lord through Dr. Gibson. The brain of a Bushman and woman presented by Miss Wakefield through Mr. Bransby Lord. A pair of canine teeth of the Chimpanzee in spirits were presented by the late Mr. James Mc[illegible]: a cranium of a new Australian presented by Mr. J. W. Salter: and a cranium of Orca gladiator by the Hon. Charles Ellis. During the past year Mr. J. Cunningham has again presented a large number of specimens of Mammalia and Birds. The Crania purchased from the Zoological Society and Museum many valuable preparations, which have been duly numbered by Mr. W. Pearson.

The cases occupied in the removal from the old Museum to the present, the injuries done and great inconvenience sustained in the temporary rooms, &c. are sincerely regretted with the wish, but inexpressible hope that [illegible]. I trust that the present Report shows little or no falling off from that of last year.

THE LIBRARY.

THE formation of a regular Library may be said to have commenced in the year 1801, at which time and in succeeding years presentations and bequests of books, often in considerable numbers, were made to the College—the principal donors being Dr. Baillie, Sir Everard Home, Sir Charles Blicke, the widow of Mr. Sharp, Sir Ludford Harvey, Dr. Fleming, Mr. Cotton, and Mr. Long. The Court of Assistants also directed from time to time the expenditure of small sums of money for the purchase of books, and eventually voted a sum of £100 per annum for this purpose. Sir Charles Blicke, in the year 1816, invested the sum of £300, the proceeds of which sum were to be devoted to the same object. Some of the purchases thus made were considerable, as in the cases of the Libraries of Mr. Pitt, Mr. St. Andre, and Sir Anthony Carlisle, and books of importance were added at the recommendation of the Conservator of the Museum and others. In this way a Library of considerable value was gradually accumulated, but it was only accessible to a limited number of persons. In 1827 active steps were taken to render it more generally useful, and with this object catalogues and extensive lists of desirable acquisitions were ordered to be prepared. Large sums of money were also expended during this and the ensuing two years, amounting in the aggregate to nearly £6000. A Librarian was appointed, and in 1828 the Library, then containing 10,500 volumes, was thrown open to members of the College, and all other persons engaged in the pursuit of natural science were freely admitted. This large collection, thus opened, offered great facilities to the studious. By means of extensive additions, the collection was well nigh complete in works on Medicine and Surgery, both domestic and foreign, whilst it was also very rich in publications relating to the accessory sciences. The transactions of Academies and Societies, and the collection of periodical publications in general, owing to their completeness, and the difficulty with which access can be obtained to this class of literature elsewhere than in large libraries, formed a valuable feature. The maintenance of the Library from that time to the present has involved a very considerable expenditure of the funds of the College. It has been the object of those to whose care it has been confided to ensure the completeness and excellence of the collection, and great facilities of reference have been provided by the preparation of additional catalogues and indexes of subjects. During the past year there have been added to the Library 406 volumes. The entire collection now consists of over 41,500 volumes.

The following is a list of the Donations that have been presented to the Library during the year 1887–88, viz.:—
